

Right Fields India makes its entry in to the Sultanate of Oman

Time has come for us to share with our customers and close associates the good news that we have formalized our corporate entry into the Sultanate of Oman to present our solution offerings to the Middle East markets.

We have formally signed our exclusive collaboration to begin our own presence in Oman through **Global Innovations LLC** with whom we have signed an equity based Joint Venture agreement. From now on, Global Innovations LLC would represent Right Fields India in the Middle East region.

Global Innovations LLC was established in 2000 and has been operating in the Sultanate of Oman with efficiency and reputation. **Mr. Sultan I. Sultan**, the Chief Executive, is a Omani businessman with ties to several reputed organizations in the Sultanate and has excellent credentials and experience in the technology space

The Team @ Right Fields India would provide the marketing, pre sale, solution delivery and post - implementation support for our customers to augment the local team in Global Innovations. There would be a free flow of management inputs between the strategic management groups of Right Fields India and Global Innovations to address the growth challenges of the Middle East market.

Clear advantages are expected from our association with Global Innovations:

- The experience and competence of Mr. Sultan I Sultan would be leveraged to build and grow the business with synergic strengths in the solution delivery contributed by Right Fields India
- Office presence in Oman will be of strategic importance to our combined businesses in the region and
- Our customers will now be able to interact directly with our team in Oman for all queries and clarifications locally.
- Our Consulting and Technical team will only be a phone call away

We have full confidence that we shall continue to work together and share the fruits of growth and success.

For all Muscat contacts, please dial Mr. Sultan at +968 96229999.
