## **Private sector telecom service provider in Oman has placed confidence on Right Fields for implementation of Microsoft Dynamics.**

A private sector telecom services provider in Sultanate of Oman has placed confidence on Right Fields for implementation of Microsoft Dynamics. The key criteria of selection were the power & ease of use of Microsoft Dynamics as well as the implementation experience of team members of Right Fields in Microsoft Dynamics.

The mandate was to implement the solution in 1 month flat and before the commencement of the operations of the telecom service provider. The team members of Right Fields implemented this solution in 1 month and enabled the telecom service provider to start the usage of the application on time.

Right Fields is a professional combine of Microsoft Dynamics experienced team with 30+ implementations. The team of 35+ consultants at Right Fields spells reliability to clients in mid market segment with quality services at affordable prices.
